EXPERIENCE

Web/Mobile Designer & Developer
Benali

Remote (USA)
JULY 2022 - PRESENT

I work directly with the founder, project manager, and copywriters in accomplishing tasks such as web design and development using AI tools such as Claude Code, Claude Design, and Codex across platforms such as Webflow, Lovable, and Figma. I also use Obsidian, Codex, Vercel, and GitHub in my daily workflow. I help integrate marketing funnels, create website brand guides, marketing assets, and audit web pages for B2B clients and podcast brands.

UI/UX & Ecommerce Designer
GeoPro Global Solutions

Pampanga, Philippines
JUNE 2021 - JULY 2022

I design and optimize web and mobile e-commerce experiences for beauty clinics and retail stores. I also collaborate closely with developers to conduct user research and UX audits, identify usability issues, and improve platform responsiveness, user experience, and on-page SEO performance.

Freelance Graphic Designer

Iloilo City, Philippines
APRIL 2020 - MAY 2021

I create graphic design assets for small businesses and have delivered four brand designs and logos to clients. My clients have launched their businesses successfully using the design assets that fit right to their envisioned branding. Other commissioned projects also include illustrations and posters for events or for personal use.
